Greetings to all Adams County Residents:

The Adams County courthouse and other county offices will remain open during the regular hours of 8 a.m. – 5 p.m. until further notice.

In order to minimize foot traffic, it is highly encouraged that our citizens utilize the online services that are available and call the offices to see if you can be assisted via telephone before making a personal visit. Phone numbers and online services can be obtained through the website below.

Also, the deadline for Homestead Exemption applications has been extended to May 1, 2020 per proclamation from the Governor.

All residents are also encouraged to register for the Code Red community notification system in order to stay further informed of important notices and information within Adams County. Please share this message with all family, friends and acquaintances. Registration for Code Red should also be accessed through our website.

Please visit our website at www.adamscountymiss.net for online services, department information and Code Red registration.

We are asking that all county residents be safe and smart during this crisis!

With warmest regards and best wishes
Joe Murray,

Adams County Administrator
